Subject: Bayview Seniors Housing and Golf Course - DA2017/1274

Dear Northern Beaches Council,

I am writing in support of the above DA.

Bayview Golf course is situated in a beautiful position with many shady trees along the fairways. These trees unlike any other of the local courses give the fairways wonderful sun protection making it a very pleasant course to play on. The shade makes playing much easier for older people like myself. During the wet months the course suffers badly from drainage issues forming large lakes in the low lying areas.

The upgrading of this excellent course will be of great benefit to both members, guests and the general public (whilst being a private course there are still public tee times on most days).

This course is a real asset and its upgrading will greatly enhance the wonderful attractions already found on the Northern Beaches.

The proposed Seniors Housing is planned to be situated in a wonderful spot with many trees and great views. I would happily live there.

I hope the DA will be approved,

Yours sincerely

Geoff Piesse
