RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

Dear Councillors

Go right ahead with you high-rise plans DA1274/2017. Never mind about the wildlife corridor or any endangered species... who cares anyway.

In a few short years no-one will remember that there was any precious bushland and whatever lived there.

Council will be raking in the all-important rates and the Council staff who advanced the DA will be very happy as will the developer who greased their hands to make it all go through. No-one will need know about that.

Go on, go right ahead. Screw the bush and the mangy wildlife - they don't deserve to live in a city anyway.
