RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

re: DA2017/1274 52 Cabbage Tree Road Bayview.

I was for 20+ years a homeowner in Cabbage Tree Rd Bayview and know well the area involved in the above DA.

I share all the objections already lodged by many people against the previous DA - but this new DA still covers an area of 5 acres and although the developer has reduced the number of apartments from 95 to 85 there will still be 7 buildings each 3 stories high.

The new plans do not change the bulk and appearance which are still not in character with the area; it is still going to block a high priority wildlife corridor and remove a minimum 140 trees. This development will be the first nail in the coffin for thousands of nature's creatures which survive today because people like me care.

Please help us to ensure the Land and Environment Court and our Council know there is overwhelming opposition to this development.

Thank you for your support.
