**RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104**

All species of animals are constantly being invaded by humans and their dwellings. This constant clearing of natural and native habitats of flora and fauna, this is devastating for all animal beings and for humans who really cherish, appreciate and want to live side by side with and maintaining the balance with our fellow animal beings.

Why not! We have a lot to learn from our animal beings. We can certainly learn a thing or two from them.

I don't want this balance to live in harmony with our animal beings and therefore this destruction of the animal corridor must not go ahead.

Imagine human homes being destroyed and frightening and vulnerable that leaves all of us feeling.

It is not a very good feeling at all.

We all need warmth, security, a consistently safe place to sleep every night and assurance of food, and this allows for beauty and growth at a constant, no matter what.

Kind regards,

Marie-Anne Phillips
