RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

Being from NSW I was always proud of the fact that NSW was ahead of the rest of Australia in having designated Wildlife corridors. Such a forward thinking positive step.

I was socked to read that they are now under threat of development they have worked due to the size and strategic placement of these corridors.

Any development within this area will totally undermine the corridors. Once there is an approval for development it will open the floodgates. PLEASE reconsider and remain ahead of the rest of Australia in maintaining these important wildlife corridors.
