Subject: Opposition to DA2017 Peninsular Gardens Retirement Village

Hello,

I wish to submit my opposition to the erection of a 3—4 storey apartments on the parcel of land that 8 vulnerable species native to this wild life corridor presently exist. When the trees are cut down, the lovely bird life that we all appreciate and love will also disappear. When I bought this apartment 4 years ago I never thought that this bushland would be removed to build an ugly building. At present there are about 6 units that are for sale that they have not been able to sell for the past 12 months mostly due to the fact that Aveo have had so much bad publicity that people are just not buying into the village any more. So the likely hood of more units being built, especially a high rise building does not make a lot of sense to me, it is just complete greed by the Malaysian person that owns these villages. I am begging the council not to approve of this application, please let us enjoy the little piece of bush that we all have now. I would appreciate if you would be able to let me know if I can also make a complaint to the Environment & Planning Department.

Yours faithfully,

Judith Evenden
