**RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104**

The development is a threat to numerous creatures, relying on the area for their survival. They cannot chose where to live, move to a more pretty place or higher tree. Their surroundings are threatened everywhere and the small area now under threat is only a financial reward for greedy developers not a caring haven for threatened birds and animals.

Please do not allow these poor creatures to be destroyed.
