**RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104**

Dear Sir/Madam

I have become aware of the proposal for the Bayview development and as a resident within the city of Sydney I wish to express my sincere concern.

The area is currently a corridor for wildlife and unfortunately we, humans, have already done a 'good' job destroying much of the wildlife habitat in our city. It is time that we act in less selfish and self centred ways and consider all life - both vegetation and animal life before we proceed to further destroy.

While I understand that providing places for humans to live is important, it is equally important to provide space for natural habitat to exist and live and not to keep pushing it further and further away. Doing so will not serve them and will not serve us or generations to come.

Please let us develop wisely with care not only for ourselves but for the total environment with whom we share this city.

I hope that love and care will overcome selfish greed and that council will make the correct choice

Thank you

Sincerely

Mrs Rachel Sussman
