RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

I strongly object to the amended plans for DA2017/1274:

This proposal will destroy 5 acres of vital Bayview wildlife corridor and remove more than 140+ remnant trees. Eight endangered species will be imperilled, including threatened Powerful Owls. In recent times, on the Northern Beaches, we have seen irreplaceable areas of natural heritage lost, creating a very sad legacy for future generations (The bulldozing of high conservation value bushland for a poorly planned extension of Manly Vale Public School is a case in point). The subject land deserves to be permanently protected from such development. The wisdom of the court and the Planning Panel has already ruled that such development should be excluded from this site. Please uphold that decision.
