RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

Planning object DA1274/2017 in the middle of the designated high priority wildlife corridor home to many vulnerable species was blocked, and with good reason. Weasel words and shifting deckchairs on the design and plans won't change that. Please send a CLEAR message that this activity should not be allowed under any circumstances. The land should never have been sold with the option of this type of development in the first place.
