RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

I object to DA1274/2017

I live on the Bouddi Peninsula in the midst of the Bouddi National Park. This has given me an appreciation of the importance of biodiversity and particularly of maintaining functional wildlife corridors.

This application to develop 7 apartment buildings in the middle of a designated high priority wildlife corridor is unacceptable.

This is Biodiversity land which should not be lost to the corridor, thus restricting the corridor, by approval of this development.
