RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

I cannot believe that Council is even considering destroying wildlife corridors or future wildlife corridors for the sake of ugly development.

Where is Council's integrity and respect not only for the people that object to this moneymaker development but the respect for the incredibly fragile and dwindling environment that is going to be destroyed along with the beautiful animals that it is home to that are being not only for us now to enjoy, but for future generations.
