RE: DA2021/1612 - 1 Clarke Street NARRABEEN NSW 2101

The Seawall should not be extended further towards South Narrabeen. As a surfer I'm extremely concerned about being washed against the giant wall in large swell. Large swell drags you down the beach and we'll be stuck in a walk if whitewash getting washed against a giant concrete wall, unable to get into the beach. Narrabeen beach is a surf destination and It will be an absolute death trap!
It's an eyesore and we certainly don't need it extended any further than the original plan.
This is a bandaid idea which will not last and is a complete waste of money and resources.
