2099**

To whom it may concern,

I am a Freshwater resident with a young family.

I am very upset and concerned about the proposed installation of the towers. My first and foremost concern is the healthy and wellbeing of my family and our community, the effects of these towers are damaging.

We have enough technology advancement and I think this is unfair, unnecessary and not needed.

I worry for the health and development of the younger generations with these kinds of towers and the radiation and emissions that come from it. It upsets me that companies such as Optus seem to get richer and take over our community without our input and permission which feels almost sneaky.

I'm really upset and worried about this and I ask that you please stop this tower from being built anywhere in our community, we need you to stand up and say no for us please.

Thank you.

Kind regards,

Melanie Martin + family
