RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

My wife and I urge the protection of a wildlife corridor, and the refusal of approval to build high-rise -- or other buildings -- in an area of wildlife use. We live in a Sydney suburb which has had its very heart ripped out of it, has lost a huge percentage of the existing tree canopy, and seen both native flora and fauna displaced to a distressing degree. All for the sake of row upon row of high-rise luxury housing blocks aimed at investors, certainly not the young first-home buyers in dire need. The Aussie way of life is being destroyed. Do not do this to vulnerable wildlife; they can't cope or complain.
