**RE: DA2018/0149 - 60 Binalong Avenue ALLAMBIE HEIGHTS NSW 2100**

Boarding house developments are completely out of character for the quiet low rise residential streets of Allambie.

The street parking is already crowded and dangerous without the addition of residents who have insufficient onsite parking.

The development does not belong in a zoned low rise residential area and is not in keeping with every other residence in the area.

These type of developments need to be in the areas zoned for medium to high density not the quiet streets filled with young children and so close to wildlife.

Each local resident we speak with is completely against this type of development.
