RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

We - the voters - find ourselves, nowadays, constantly trying to prevent the destruction of certain natural corridors of land, that are inhabited, frequently, by rare or endangered species - thus, not only do we find ourselves fighting to protect nature's endangered animals AND the tracts of land that they rely upon for sustenance, to live and breed.

That in itself, is a worry to us (voters) but now we find ourselves almost constantly fighting councils, government departments generally and - dare I say it - 'dollar driven' companies and councils.

Really, this is now 'one step too far' and I/we object to the DA1274/2017 to develop 7 apartment buildings in the middle of the designated HIGH PRIORITY wildlife corridor, the home to many vulnerable species!!

I ask you; Is it that you think voters do not 'notice' what is happening? Yet, I/we DO indeed notice it, and are angered by it.

Voters do not appreciate being ignored!

When I/we say we object to DA1274/2017 we MEAN it and expect, further, to have our objections - not just 'taken under consideration' - but to actually be taken seriously, and to listen and act upon our objections by stopping this development post haste.

This is Biodiversity land and should not be destroyed by this development.

We - the voters upon whom you rely for re-election - want a halt on these plans ASAP and to prevent ANY development that is a threat to this wildlife corridor and all the creatures that are under threat by this planned Development.
