RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

I am the current Club Professional at Bayview Golf Club and have been contracted to Bayview Golf Club for 5 1/2 years in this position.

I look at the proposed development as an opportunity to secure the future of the club which is an important recreational venue that is used by the wider community.

Bayview as well as having a membership is also a public access golf course and improvements to the club and course would encourage further engagement from the community in visiting the golf club.

The ageing population in the area need facilities like Bayview Golf Club to stay active and engaged in the community.

The proposed improvements made to the golf course will enhance playability and the community would benefit from using a higher quality facility that is accessible in all types of weather.

I could only see positive outcomes if the development was to proceed.

Regards

Neil Rolfe
