**Subject:** Wildlife corridor change

I looked at your website, but couldn't find the topic I wanted.

This is a comment on the proposed changes to the corridor in your area. As a birder, I am concerned about habitat. People can ignore what goes on around them, but birds need their own spaces, for food and safety and breeding, etc. We (humans and birds) need to feel safe, and being surrounded by large resorts does not contribute to feeling safe.

Even though humans are powerful, that does not mean we have the right to cover every available space. It would be good for our egos to learn restraint.

Please leave space for other species. If we do not protect the environment, we will be the worse for it, but before then, we could destroy the rest of plants and animals. It just doesn't make sense.

Martha Hills, Burwood
