RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

Please stop don't build there we don't have much left safe our wildlife areas . Our water Barrier Reef ,and other fragile areas are already being destroyed by mining or development. Please stop it's destroying our beautiful wildlife to extinction we need to save what we have Now Australia is a laughing stock to the rest of the world for our government stupid sell off she and mustard don't add this to the list we should be saving our land wildlife so people can experience the Beauty of our unique Wildlife that lives here in Australia. Take a look at the bigger picture if it's all destroyed and disappears we had a beautiful country land unique wildlife save what's left please for our kids grandchildren. Thank You Debra lipke
