**RE: DA2020/1756 - 353 Barrenjoey Road NEWPORT NSW 2106**

This development does not meet the needs of the community. We are firmly opposed to allowing access to site parking from Robertson Rd as recent community counsel strongly indicates that the ability of this precinct to be pedestrianised for events is important and valued by a significant majority. Allowing this sort of unsympathetic development is putting greed over community. The Robertson Rd precinct has the potential to be a wonderful social hub and the community is working on plans that tick many more boxes than this proposal would. We are a democracy and as such need to respect the will of the community.
