

Traffic Engineer Referral Response

Application Number:	DA2018/0571
Responsible Officer	
Land to be developed (Address):	Lot 51 SP 50167 , 14 / 54 Wattle Road BROOKVALE NSW 2100 Lot 52 SP 50167 , 14 / 54 Wattle Road BROOKVALE NSW 2100 Lot 56 SP 50167 , 14 / 54 Wattle Road BROOKVALE NSW 2100 Lot 57 SP 50167 , 14 / 54 Wattle Road BROOKVALE NSW 2100 Lot 58 SP 50167 , 14 / 54 Wattle Road BROOKVALE NSW 2100 Lot 59 SP 50167 , 14 / 54 Wattle Road BROOKVALE NSW 2100

Reasons for referral

This application seeks consent for the following:

- New Dwellings or
- Applications that require OSD where additional impervious area exceeds 50m² or
- Alterations to existing or new driveways or
- Where proposals affect or are adjacent to Council drainage infrastructure incl. watercourses and drainage channels or
- Torrens, Stratum and Community Title Subdivisions or
- All new Commercial and Industrial and RFB Development with the exception of signage or
- Works/uses in flood affected areas

And as such, Councils development engineers are required to consider the likely impacts on drainage regimes.

Officer comments

Council at the pre-lodgement meeting requested that the applicant undertake a comparison of a similar site to determine the requirements for parking demand, particularly for a development anticipated to attract up to 70 patrons. The applicant has failed to provide adequate information. However Council has approved a similar development, hence the approved parking rates utilised in that report will be adopted for this review..

The consultant has classified the whole development as an 'Industry' hoping to achieve parking compliance. Under an 'Industry' classification, the site will require parking provisions onsite for 6 car spaces. However, Council's review of the proposed development indicates that 361m² GFA will be associated with the brewery, whilst the remaining 149m² (to be used as a taproom and outdoor seating) shall be classified as a specialty shop.

Based on the applicable rates, the proposed development is required to provide 15 parking spaces. The applicant is proposing to remove 2 of the existing 15 spaces to accommodate outdoor facilities. This

therefore brings the total provision of parking to 13 spaces which represents a shortfall of 2 spaces.

Concern is raised during the overlapping period between operation of the brewery and taproom. The operations of the brewery cease at 5.00pm. The operation of the taproom commence at 11.00am. Therefore there is a 6 hour window where maximum parking usage could be expected. Accommodating 2 spaces on street is considered minor. Therefore Traffic raise no objection provided Development Engineer is addresses and is satisfied with the parking shortfall.
