Subject: Attn: Phil Lane Re: DA2019/0287

Good morning Phil

Thank you for your time on the phone yesterday. Please accept my formal submission but please redact any of my personal information from the submission.

As discussed I have a couple of points:

- 1) They have already moved in and started renovating before we received this DA, judging by the noise may have had some classes there already.
- 2) The vibrations from the pads are felt on the third floor
- 3) The noise also from the hitting the pads (assumption it is pads) is very clearly heard.

I note on DA it says noise will not be a issue, it appears it is. Also I note classes will take up to 20 people, where will these people park? Why have they utilised our visitor parking on their submission? I'm sure that was intended for residential visitors not commercial. As you can I'm concerned, we paid a lot of money for this apartment, noise travels easily around here.

Kind regards
