2099**

Dear Sir/Madam,

In regards the application to install a phone tower in the parklands around Curl Curl Lagoon.

There are already mobile phone transmission structures located at the highest point in the local area (St Lukes school and associated industrial area). The elevation lends itself to being suitable for such repeaters/receivers giving coverage to the surrounding lower areas.

Installation of this tower is unnecessary and would detract from the recreation and sporting amenity that the park land provides. There maybe potential to use the Nth Curl Curl lifesaving facility as a mounting point as well. Creating a stand alone pole will only encourage other phone providers to hang additional items from it or use it as a precedent to erect their own.

We oppose this development.

Yours sincerely,  
John and Julie Walsh.
