RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

Australia had the dubious record for the highest species extinction rate in the world. Developments that are insensitive to wildlife and their needs contribute greatly to this toll. A balanced society honours all aspects of life and honours the species, fragile and valuable to our country. No development should infringe on the health and well-being of the animals that cling to life on the boundaries of our urban sprawl. Please do not sacrifice this precious wildlife corridor for just another soulless set of boxes for yet more human dwellings.
