Proposed Development No. DA2017/1274 – AMENDED PLANS

Dear Sir/Madam

Our house directly adjoins the proposed development and we wholeheartedly support it.

We value a strong sense of community with good neighbours and we believe that the quality of this development will likely bring us that and add value to everyone.

In retirement, we value our peace. We do not like the noise from speeding traffic along Cabbage Tree Road and we hope the new roundabout will quieten the traffic down.

We do enjoy the birdlife and are pleased that improvements to vegetation and all the extra trees that will be planted will increase the birds in our area.

It is good that the golf course's future will be assured as we wouldn't want anything else outside our back fence.

The development will also give us additional choice for our own retirement. We really like this area and would like to retire locally when the time comes so that we can stay in touch with our friends.

Yours sincerely

A handwritten signature in cursive script that reads 'A Riegler'.

August Riegler
