RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

I would like to support the Waterbrook application.

In the past I have lived in Bayview and played on Bayview Golf Course many times. The course needs much work and the Beaches requires a quality retirement operator that can lure retirees out of their large family homes, freeing them up for young Beaches families.

I, like many of my friends have been waiting for a couple of years for the Waterbrook development to proceed, it is a very frustrating time for us all. We are not getting any younger and the longer we wait the less chance we have of actually taking care of ourselves and the larger burden we will be to the community and government.

This beautiful development for retirees should be embraced by our local communities, it will generate employment, enhance the golf course, embrace seniors in real need and provide a wonderful interaction with locals and their families.

The ecology I understand will be greatly improved on the site and the golf course at large. We desperately need the wildlife corridor to be rectified and the waterways improved.

I encourage you to listen to the local senior community and approve this development.

Thank you.
Ella McNulty.
