RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

I object to DA1274/2017 to develop 7 apartment buildings in the middle of the designated high priority wildlife corridor home to many vulnerable species. This is Biodiversity land and should not be destroyed by this development. Apart from that, this is not a safe corridor to develop due to the restricted road in and out of the area. We have overdeveloped a lot of areas in other suburbs to the detriment of the peaceful areas involved. I have a dangerous gum at the front of my home, thousands of gum trees were destroyed when the M1 went past but I cannot have the dangerous gum removed because it is a protected species. Not your council's worry but an example of what councils will do to get an expressway in compared to what they will do for a resident with an issue. We enjoy the bush. It is sad to see that more may be taken away.
