RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

I strongly object to DA1274/2017.

The bulk and number of proposed buildings is inappropriate. The application and proposed development does not avoid, mitigate nor minimise the impact upon listed threatened species. This area is known habitat to vulnerable species including the Powerful Owl, a first order raptor. The biodiversity of this sensitive area **MUST** be conserved and this development flies in the face of environmental protection.

I request this DA be refused.

Regards

Patricia Brown
