RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

Dear Sir/Madam

I object to DA1274/2017 to develop 7 apartment buildings in the middle of the designated high priority wildlife corridor home to many vulnerable native species.

The rich biodiversity of fauna and flora located in and using this sensitive corridor land is certainly worthy of protection. The land performs an essential role in allowing species to transit and migrate between different localities which will be blocked and destroyed by this development.

Many local vulnerable species will be decimated if this project is approved which would be a significant adverse environmental impact and outcome that we can do without.

Yours sincerely
Ronald Brown
