2099**

My little sister will be going to the school right next to where they want to put the
reception tower and she will probably learn to ride her bike there and I don't want to
be able to see it from the balcony because it doesn't look even half as good houses
cliffs and the beach so it would be really nice if they put it somewhere else because
there are a lot of kids that live and are growing up in this area too
