RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

There aren't enough wildlife corridors as it is so taking one away will have devastating effects on wildlife. It is a time of crisis for wildlife in Australia and we should be doing things to help them survive instead of making it harder and harder by taking away their habitat. It's not good enough. As a volunteer Wildcare Australia rescuer and hotline operator I see the many ways in which we as humans are failing our native wildlife- please do something to stop this potential murder of native animals that live there.
