RE: DA2020/1756 - 353 Barrenjoey Road NEWPORT NSW 2106

To Mr Jordan Davies

Following my previous submission, the resubmission of this application has done little in way of addressing concerns. These being

- * the lack of consideration of the Newport Master Plan in discouraging this type of development.
- * height, scale and bulk exceed the limits of such a development.
- * disregard to the community's wish to have a pedestrian plaza in Robertson Road.

How can any development benefit the Newport Community unless developers listen to the residents and understand how their proposal fits within the NMP?
