RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

I am a bird watcher who regularly visits this area to photograph wildlife and birdlife. I strongly object to DA1274/2017. The pressure on increasingly rare patches of habitat for animals and birds from developers must be resisted by councils and urban planning bodies. 7 apartment buildings in the middle of a wildlife corridor cannot be allowed. I urge you to respect the value of the last remaining pieces of natural beauty in our sprawling city, and protect them into perpetuity for our grandchildren and future generations. In an era of climate change, sustainability must be prioritised for liveability.
