Subject: Bayview

Dear Sirs/Madams

It has been our pleasure to live on the Northern Beaches for more than 20 years.

During that time there have been many changes mostly for the good.

It has also been my pleasure to play golf (mostly badly) at Bayview golf course and others around the area.

What has really impressed me about Bayview is the care and constant upgrading of the course and surrounds. I have also been impressed with the array of Australian wildlife that the course has attracted. I think the plans that I have seen will only enhance the attraction for such wildlife. The plans also appear sensitive to the overall environment and it will retain a swart of green open space where it is much needed without in anyway comprising what is there now.

As a couple who are getting on in life we also welcome a first class facility at which we could feel safe and cared for should the need arise (hope it doesn't) Thank you for reading this We look forward to a fruitful outcome.

Kind Regards
Jack O'Mahony
