RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

I fiercely object to plans to place wildlife under additional stress by allowing development in the Wildlife Corridor at Bayview. As if there isn't enough pressure on our dwindling wildlife already! Instead, propose plans to reduce population growth in the area, thus relieving demands by greedy developers for more land to build on at the expense of our native bushland. The Northern Beaches Council has an obligation to keep remaining bushland exactly as that: BUSHLAND, not over-crowded housing developments that profit the greedy. We regularly visit family in Sydney and Central Coast and one of the pleasures is being able to drive through bushland on Sydney's outskirts.
