**RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104**

Dear Sir/Madam,

I am writing to express my concerns about the application for high density residential development in the nature reserve in Bayview.

I object to DA1274/2017 to develop 7 apartment buildings in the middle of the designated high priority wildlife and coastal corridor, home to many vulnerable species. This is Biodiversity land and should not be destroyed by this 85 Unit development.

This application has been lodged despite the Refusal of this DA by the Regional Panel for SEPP Seniors Housing in the Bayview Wildlife Corridor on many significant grounds including Substantial and Adverse impacts on the environment and despite overwhelming community objections and over 61,100 signatures.

Nature reserves and other sensitive environmental areas must be protected for the benefit and enjoyment of future generations and the protection of inhabiting flora and fauna, not developed for the financial gain of of small cohort of vested interests. Too often, we see potential profit dominate the decision-making process of Governments at all levels. This methodology must end to ensure a sustainable future for the future.

T therefore implore that this application be rejected.

Regards,  
David Priddle
