**RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104**

(I'm aware that I am not in the council region, however this is an issue that affects greater areas)

Regarding plans that will destroy wildlife corridor in Bayview:  
Wildlife corridors are vital to the preservation of species, even more critical in these days of continued habitat loss.

We cannot allow any development that will destroy one of these corridors - it will directly contribute to extinction.
