RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

Hello

I now live in Perth, Western Australia and have seen first hand what little regard to the native flora and fauna the previous Government here had, where plans to build a road through major wetlands south of Perth, were only quashed due to the massive public backlash over this plan and luckily the change of government.

I previously lived in Sydney and often traveled up to the Northern Beaches, as some of my fellow workers lived around Terrigal, and surfed at Box Head. I always enjoyed the beautiful bush setting of the area when travelling up there.

I urge you not to let the short sighted, and money hungry view of developers destroy such a beautiful area for short term profits.

Regards

Roger Bartholomeusz
