RE: DA2021/1612 - 1 Clarke Street NARRABEEN NSW 2101

Hi, I am concerned that the vertical seawall for the Narrabeen/Collaroy may be damaging to the beach and have issues with overshadowing and obstruct safe visibility access along the beach. The DA proposed for the wall in front of the South Narrabeen SLSC does not address the type of wall to be built. In addition, I have concerns over what happens when the beach is impassible and who then would be liable. I would like the work to cease until the community can be more fully informed.

Many thanks.
