RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

I think the Waterbrook development is a positive for the Bayview area. I am aware that the wildlife corridor appears to be an issue without foundation as the golf course is fenced onto Cabbage Tree Road, therefor nullifying any concept of a corridor to anywhere.

In relation to the development height from development markers that were set up previously, the development did not appear to be significantly higher than the existing vegetation. Therefore I do not have an issue with the development height.
