**RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104**

Dear Assessing Officer,

I was horrified to read of the proposed plans to build a massive apartment complex in the magnificent Bayview area. The pristine bushland and wildlife corridor fringing Pittwater, should be retained at all costs. The retention of this invaluable area is vital for our welfare of ur native fauna and flora. Already, so many of Australia's precious and unique native animals are endangered or now extinct.

All efforts must be taken to stop such over development in this iconic suburb, before irreparable damage is done. The long term gain of retaining Bayview's bushland environment, FAR outways any monetary gain. Please make every effort to stop and prevent this development.

Yours faithfully,  
Jane Edwards
