RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

As a "grey nomad" currently traveling around Australia, my husband and I have been shocked at the vast amount of land clearing and devastation of flora and fauna habitat we have witnessed. Please do not allow the development through the wildlife corridor of northern beaches. We should be protecting our precious animals and plants not threatening and destroying them. Please work to find a compromise with the developer. Future generations will thank you.
