RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

Dear Sir/Madam, I wish to say that I have the utmost respect for our wonderful seniors (being one myself) , however, I have the same amount of empathy and compassion for our Wildlife who are running out of habitat at an alarming rate. This development is adding to the problem . I understand that we have a rapidly ageing population and that facilities are in need to accommodate this , however it is essential that we leave room for other species, particularly if the land is a Wildlife corridor. In other words,please find somewhere else for our elderly. PLEASE.
