RE: DA2018/0149 - 60 Binalong Avenue ALLAMBIE HEIGHTS NSW 2100

I do not agree to this development! We live around the corner and the noise coming down the valley is already a problem imagine 30 extra rooms filled with people. My children and other children from our street walk to school in the mornings, past this property. At the moment it's quiet and safe, but it won't be with extra cars going in and out! There has. Even a few problems with the sewer in the valley, the pressure it will add to this already problematic issue! We have seen a wallaby and amazing wildlife in the little reserve adjoining the property because of the quiet nature way! This will all be different after so many extra people, vehicles and all the beautiful big oak trees on the property be destroyed! All around us is low density housing and a real community feel, we do not want that to change.
