**RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104**

We all enjoy seeing wildlife. It lifts our spirits and makes us feel connected. In order to have these experiences we must protect vital wildlife breeding grounds, habitat and travel corridors. We, as a species, must not forget that this planet is not ours alone! We share it with billions of other life forms. Yes, we have the power to destroy those other life forms and sadly we've managed to drive far too many into extinction already!

Please, keep your hands clean, don't approve the development on the vital Bayview wildlife corridor. Let our children, grandchildren and beyond be proud of us, not sad and ashamed.

Yours with hope  
Suzanne Louden
