RE: DA2017/1294 - 9 Lawrence Street FRESHWATER NSW 2096

I am extremely disappointed that council did not notify me of this development proposal. The reality is that any DA in relation to the "CBD" of Freshwater in the area of Lawrence St, Albert St and Moore Rd has big implications for residents within walking distance. I totally oppose this proposal. It is most excessive and will detract from the Village atmosphere of Freshwater. The traffic implications are horrendous in an area with lots of young families with children who regularly use the footpaths. It is already dangerous and particularly so on the weekends when many people are out and about visiting cafes and walking to and from the beach. If this proposal is allowed to proceed than similar ones will follow and the Freshwater Village atmosphere will be totally destroyed.
