RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

Although I do not live in the Northern Beaches area, I am concerned about the diminishing native vegetation in the Sydney Basin in general, but in particular of the necessity to maintain healthy and viable wildlife corridors. The importance of these is well understood.

In the case of the development proposal at Bayview for a number of apartment buildings it is clear that the impact of this proposal flies in the face of what may be considered good habitat management.

I offer no comment on the other social impacts, except to say that the quality of life of the citizens can be directly related to the quality of the natural environment within which we live.

I offer my objections as a citizen concerned with the incremental losses within our metropolis.
