**RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104**

I respectfully but strongly object to DA 1274/2017 to develop 7 apartment buildings in the middle of the designated high priority wildlife and coastal corridor, home to many vulnerable species.

What do "designated" and "high priority" mean if development applications can even be considered? This is an appalling way to show consideration for the natural world which is under stress in so many places.

There is a web of life and we are part of it. Species have become vulnerable often because of thoughtless human activity. A "corridor" is not much but our local species need at least that much protection.

As a local nature lover and primary school teacher, I say no to inappropriate development.
