RE: DA2017/1274 - 52 Cabbage Tree Road BAYVIEW NSW 2104

I am appalled that an appeal has been made to still allow development in a wildlife corridor. If this is allowed it will create a precedent for all other developments and must not be allowed. Are we so driven by property developers that we need to cut off nature at the knees?. The stress of losing their territory can mean the loss of a whole species. Please do not allow this development to go through. One of the reasons we live on the Northern Beaches is for the love of nature. Much of this has already gone.
